Christopher Belgrave

Senior Project / Product Manager · AI-Enabled Commercial Transformation · Digital Operating Model Design

London, UK | +44 79 123 600 75 | chrisbelgrave@gmail.com | LinkedIn Profile

AI TRANSFORMATION | DIGITAL OPERATING MODELS | CSPO CERTIFIED

CORE CAPABILITIES

AI & Automation
Generative AI workflow integration · Prompt engineering · RAG concepts · Operational automation design

Commercial Transformation
Quote-to-delivery workflow redesign · CRM integration & adoption · Digital operating model design · KPI-led oversight

Product & Platform
API-led architecture · CMS ecosystems · Microservices roadmapping · UX governance

Stakeholder Leadership
Executive alignment · Cross-functional facilitation · Partner accountability · Risk & scope governance

TECHNICAL TOOLKIT

AI & Engineering
Claude (Anthropic) | ChatGPT / Codex | Cursor | Ollama | Prompt Engineering

Product & Collaboration
Notion | Jira | Confluence | ClickUp | Figma | Miro | BugHerd

CRM & Commercial
Salesforce | HubSpot | GoHighLevel | UTM Tracking

Platforms & Dev
Webflow | WordPress | Sitecore | React Native | PostgreSQL | AWS

PROFILE

AI and Digital Transformation leader with **19+ years' experience** redesigning commercial and operational workflows across B2B organisations. I specialise in replacing fragmented, manual legacy processes with AI-enabled, digitally-native operating models that:

- → Improve turnaround times across commercial and delivery cycles.
- → Increase team productivity through structured automation and tooling.
- → Deliver measurable commercial impact tied to business outcomes.

My experience spans AI workflow integration, CRM adoption programmes, portal modernisation, scalable platform architecture, and cross-functional transformation across international markets. I am equally comfortable **defining future-state operating models** with senior stakeholders as I am working alongside UX and engineering teams to deliver them.

CSPO · Proven track record of holding teams and partners accountable for outcomes — not just delivery.

AI & COMMERCIAL TRANSFORMATION EXPERIENCE

Chromaverse Ltd

Freelance Programme / Project Director – AI & Digital Transformation

Dec 2023 – Present
London / Barbados (Remote)

Programme-level leadership delivering digital platform and marketing transformation initiatives using AI-enabled workflows, CRM integrations, and scalable web platforms.

Inter-American Development Bank (IDB)

- Designed and delivered a GDPR-compliant, AI-driven regional engagement programme targeting 10,000+ businesses across the Caribbean.
- Built AI-assisted survey funnels and incentive mechanisms to improve structured data capture and response rates.
- Established data governance frameworks ensuring compliance, transparency, and audit readiness.

Skyviews – AI Platform & Architecture Modernisation

- Led AI and PostgreSQL integration strategy across web and application environments.
- Produced future-state scalability roadmap incorporating microservices, GraphQL, CI/CD pipelines, and 2FA security.

Azure | CI/CD

Data & Analytics

Google Analytics | Adobe Analytics | Looker Studio

CERTIFICATIONS

Certified Scrum Product Owner (CSPO)
Scrum.org

Introduction to Augmented Reality
Google · Coursera

Skills Bootcamp – 3D Design & Visualisation (Blender)
UK Government Funded · 2024

PADI Advanced Open Water Diver

EDUCATION

BTEC National Diploma in Media Technology
Leeds City College

- Defined API governance standards and documentation frameworks.

Service Scalers
2025 – 2026

AI-Enabled Digital Operations & Workflow Lead

- Led redesign of digital acquisition and operational delivery systems across multiple B2B & B2C service brands.
- Re-engineered website build and migration pipelines into structured digital operating systems.
- Integrated GoHighLevel CRM with structured website lead capture and tracking infrastructure.
- Implemented automation between BugHerd, Notion, Slack, and Google Sheets to reduce manual coordination overhead — sites built in Webflow and WordPress.

IMPACT

✓ Reduced operational friction and improved cross-functional visibility.
✓ Strengthened CRM alignment and sales attribution visibility.
✓ Increased efficiency and predictability across digital launch cycles.

ENTERPRISE TRANSFORMATION LEADERSHIP

Craft Worldwide
May – Nov 2023

Senior Project Manager EMEA – AI & Digital Transformation

- Led AI-enabled workflow transformation across EMEA production teams, introducing generative AI into creative and operational pipelines.
- Sponsored prompt engineering workshops to drive behavioural adoption across teams.

WPP / OpenX
Dec 2021 – Oct 2022

Senior Project Manager – Global Commercial Delivery

- Led end-to-end global programme delivery across The Coca-Cola Company portfolio.
- Coordinated cross-agency commercial workflows and managed governance, risk, and delivery accountability across international stakeholders.

Sennep
2019 – 2020

Product Manager – Cross-Platform Application Delivery

- Led development of the Lumi mobile application (iOS & Android), managing React Native and Unity agile delivery cycles.

Critical Mass
2020

Business Analyst / Product Owner

- Led GDPR compliance transformation across the Mitsubishi EU digital estate, implementing structured tagging and cookie governance.

Gildan (Barbados)
2018
Barbados

Project Manager – eCommerce & ERP Integration

- Led Oracle JD Edwards integration with Smarter Commerce CMS, modernising eCommerce workflows and order management pipelines.
