Christopher Belgrave

Agile Product / Project Manager · CSPO · Digital Native · AI & Transformation Leader

London, UK | +44 79 123 600 75 | chrisbelgrave@gmail.com | linkedin.com/in/chrisbelgrave

19+ YEARS EXPERIENCE | AI & DIGITAL TRANSFORMATION | CSPO CERTIFIED | BUDGETS UP TO $3.4M

ABOUT ME

With over 19 years of experience as a producer, digital project manager, and Product Manager, I have developed an extensive skillset managing digital advertising and transformation teams.

I excel in managing complex production flows across global, offshore and cross-functional teams using both waterfall and agile methodologies. I've worked with CEOs and executives across the UK, Europe and USA implementing AI, CMS/DAM and large-platform transformations.

I have managed budgets of up to **$3.4 million** and bring a detail-oriented approach to requirements definition, backlog refinement, and stakeholder alignment.

AI & COMMERCIAL TRANSFORMATION (2023 – PRESENT)

Chromaverse Ltd

Dec 2023 – Present
London / Barbados (Remote)

Freelance Programme / Project Director – AI & Digital Transformation

Programme-level leadership delivering digital platform and marketing transformation initiatives using AI-enabled workflows, CRM integrations, and scalable web platforms.

Inter-American Development Bank (IDB)

- Designed and delivered a GDPR-compliant, AI-driven regional engagement programme targeting 10,000+ businesses across the Caribbean.
- Built AI-assisted survey funnels and incentive mechanisms to improve structured data capture and response rates.
- Established data governance frameworks ensuring compliance, transparency, and audit readiness.

Skyviews – AI Platform & Architecture Modernisation

- Led AI and PostgreSQL integration strategy across web and application environments.
- Produced future-state scalability roadmap incorporating microservices architecture, GraphQL, CI/CD pipelines, and 2FA security.
- Defined API governance standards and documentation frameworks.

Service Scalers

2025 – 2026

AI-Enabled Digital Operations & Workflow Lead

- Led redesign of digital acquisition and operational delivery systems across multiple B2B & B2C service brands.
- Re-engineered website build and migration pipelines into structured digital operating systems.
- Integrated GoHighLevel CRM with structured website lead capture and tracking infrastructure.
- Implemented automation between BugHerd, Notion, Slack, and Google Sheets to reduce manual coordination overhead — sites built in Webflow and WordPress.

IMPACT

- ✓ Reduced operational friction and improved visibility across cross-functional teams.
- ✓ Strengthened CRM alignment and sales attribution visibility.
- ✓ Increased efficiency and predictability across digital launch cycles.

Craft Worldwide

May – Nov 2023

Senior Project Manager EMEA

FTC

- Spearheaded high-impact initiatives across the global network to drive innovation, optimise operations, reduce costs, and boost efficiencies.
- Oversaw diverse projects spanning AR, video production, AI automation, and generative AI/3D/VFX workflows.
- Pioneered integration of cutting-edge technologies including generative AI, AR, 3D, VFX, and Adobe workflows.
- Led offshore team setup and AI workflow automation for operational efficiency.
- Onboarded newly partnered agency Threedium for AR projects with L'Oréal/Maybelline.
- Headed business transformation activities including virtual studio setup, prompt training, and workflow automation.
- Managed client relationships and partnerships with leading global brands; fostered collaboration across the IPG global network.
